

# FAST-TRACK

## Continuous Validation

Shrink your assessment cycles from months to days by avoiding common roadblocks.

The road to achieving continuous validation is rocky. Fraught with obstacles in integrating various technology solutions, data management, prioritization, and remediation tracking, testing cycles are more like a dirt road than a highway.

Enter PlexTrac, the industry-leading solution for automating planning, findings delivery, and remediation tracking.

Journey without PlexTrac ↓

Journey with PlexTrac ↓

TARGETED TEST PLANS

Overwhelming amounts of data to sort thru Next 100 Miles

NO EFFECTIVE WAY to prioritize or create tickets

LACK OF REMEDIATION TRACKING

Watch for recurring vulnerabilities

LONG CYCLE TIMES AHEAD

REDUCED SPEED AHEAD

DIFFICULTY DEMONSTRATING PROGRESS TO STAKEHOLDERS

Harness Repeatable Test Plans

Prioritize Findings from Proactive Security Data Sources

Auto-Deliver Findings to Ticketing Systems

Implement Closed-Loop Remediation

Demonstrate Impact on Security Posture

Eliminate Threat Recurrence

### Conquer the Last Mile of Continuous Validation

Perform a higher volume of tests in a shorter amount of time to truly demonstrate progress, prevent recurring vulnerabilities, and maximize your investment in PTaaS, BAS, and continuous validation tools with PlexTrac.
