Our 2025 Journey Together

Q1

Expanded CTEM Capabilities

PlexTrac launched CTEM capabilities, expanding beyond traditional pentest reporting to help teams centralize security data, prioritize risk by business impact, automate remediation, and continuously validate exposure reduction.

RSAC 2025

At RSA Conference 2025, PlexTrac showcased how security teams can move beyond reactive vulnerability management and take control of their threat exposure. With the introduction of CTEM, attendees saw how PlexTrac helps teams centralize findings, prioritize real-world risk, and drive faster, more effective remediation.

From live demos to conversations on the show floor, PlexTrac's message at RSA was clear: cut through the noise, focus on what matters most, and empower teams to go from overwhelmed to heroic in the face of today's evolving threats.

Q2

Workflow Automation Engine Launch

PlexTrac introduced a significantly enhanced Workflow Automation Engine, designed to standardize and automate workflows across the vulnerability lifecycle. The update streamlines pentest findings delivery, reduces reliance on static PDF reports, and improves coordination between security, IT, and remediation teams—helping organizations operationalize findings faster and more effectively.

Pentest Report Writing Bootcamp

We officially launched our Pentest Report Writing Bootcamp in July and have since hosted four in-person sessions and two virtual bootcamps. We're excited to announce that we will be hosting virtual bootcamp for our UK audience (date TBD), along with two additional in-person sessions at WWHF Denver.

Q3

ServiceNow Build Partner Program Integration

PlexTrac announced it joined the ServiceNow Build Partner Program, enabling deeper integrations with ServiceNow IT Service Management (ITSM) and Integrated Risk Management (IRM). This partnership allows customers to automate end-to-end vulnerability remediation workflows directly within ServiceNow, further reducing friction between security teams and operational stakeholders.

G2 Awards

We were recognized with awards for Best ROI, Best Support, Easiest to Do Business With, and High Performer, based on feedback from our customers. We're proud to maintain a 4.9 out of 5-star rating.

Black Hat USA 2025

At Black Hat USA in Las Vegas, PlexTrac continued the momentum with packed conversations around exposure management, pentesting, and turning security insights into action.

A highlight of the week was our PlexTrac Happy Hour, which drew 260 registrants and brought together customers and prospects from across the industry for networking, real talk on security challenges, and a well-earned break from the conference floor. The strong turnout underscored the growing PlexTrac community and the demand for smarter, more effective ways to manage and reduce risk.

Q4

Gartner Recognition

PlexTrac was recognized as a Niche Player in the 2025 Gartner® Magic Quadrant™ for Exposure Assessment Platforms. The recognition highlights PlexTrac's evolution into a centralized exposure assessment and CTEM platform, supporting continuous validation, prioritization, and remediation across the vulnerability management lifecycle.

Black Hat Europe 2025

At Black Hat Europe 2025 in London, PlexTrac continued its global engagement with security practitioners, joining conversations on navigating today's cyber landscape and the evolving challenges teams face in prioritizing risk and driving impactful remediation.

From the show floor to media spotlight moments—including a feature discussion with our founder on Cybercrime Magazine—PlexTrac connected with attendees hungry for practical ways to turn insights into action and strengthen security outcomes in the year ahead.
